

Journal of Spinal Disorders Volume 12, 1999

SUBJECT INDEX

- Abscess, spinal epidural: epidemiology, diagnosis, and treatment of, 89
- Allograft, anterior cortical, in thoracolumbar fractures, 424
- Anatomy
 of cervicothoracic junction, 519
 of human lumbar spine, 415
 of pedicle screw placement at sacrum, 227
- Anemia, in lumbar spinal fusion, 107
- Angiolipoma, spinal, 353
- Angioma, spinal, 353
- Animal models, for prevention of polymethylmethacrylate-induced thermal injury, 496
- Anterior approach
 to cervicothoracic junction of spine, 102
 in short fusion with Zielke procedure, 451
 spinal surgery, 206, 214
- Anterior plating, in cervical discectomy and fusion, 467
- Antibiotics, for spinal epidural abscess, 89
- Antimicrobial therapy, for postsurgical staphylococcal wound infection, 187
- Anxiety, with lumbar disc herniation, 375
- Arachnoid scarring, in posttraumatic syringomyelia, 485
- Arteriosclerosis obliterans, backache in, 162
- Arthrodesis
 lumbar spine, 1
 posterolateral intertransverse process spinal, 179
- Automated percutaneous lumbar discectomy, magnetic resonance imaging and early clinical outcome in, 368
- Axial symptoms
 after anterior spinal fusion, 50
 after en bloc cervical laminoplasty, 392
- Backache, vascular, 162
- Ballon device, for graded spinal cord compression, 257
- Biomechanics
 of cervical spine, 45
 of lumbar dura, 331
 of lumbar spine-lumbar curvature in lifting, 436
 of plates and rods in unstable thoracic spine, 115
 of spine under posterior shear load, 501
 of thoracolumbar spine implants, 410
- Bone cement, in thermal injury of spinal cord, 496
- Bone graft
 anterior cervical, 45
 autogenous, for isolated disc resorption and degenerative disc disease, 34
 substitute for, posterolateral intertransverse process spinal arthrodesis with, 179
- Bone morphogenetic protein, in spinal arthrodesis, 179
- Bone screw, transition zone degeneration and, 27
- Cadaver testing, anterior cervical graft, 45
- Cadaveric dissection, cervicothoracic junction anatomy and, 519
- Cauda equina region, ependymoma of, 157
- Cauda equina syndrome, laser-assisted discectomy for, 77
- Cell proliferation, after disc herniation, 57
- Cerebral hemorrhage, with lumbar puncture, 168
- Cerebral palsy
 complications of spinal fusions in, 197
 shortening of unit rod protruding into hip joint in, 74
- Cerebrospinal fluid obstruction, syringomyelia and, 485
- Cervical disc herniation, with radiculopathy, 396
- Cervical myelopathy
 after cervical spinal fusion, 50
 with laminectomy membrane compression, 172
 modified expansive open-door laminoplasty in, 386
- Cervical ossification, of posterior longitudinal ligament, 271
- Cervical spine
 anterior fusion of
 alignment after, 50
 axial symptoms and cervical alignments after, 50
 anterior interbody fusion of, 215
 for chronic spondylitic radiculopathy, 221
 computed tomography of, 472
 en bloc laminoplasty of, 392
 graft and plate load sharing in, 45
 laminectomy of with posterior wiring and fusion of
 cervical ossification, 461
 plating of, 467
 porcine model of for human lumbar spine, 415
 rheumatoid arthritis subluxation of without myelopathy, 81
 spondylitic myelopathy of, long-term follow-up after French window laminoplasty for, 99
- Cervical vertebrae, after anterior cervical discectomy, 94
- Cervicothoracic junction
 anatomy of, 519
 anterior approach to, 102
- Chemical meningitis, with lumbar puncture, 168
- Children, factors predicting complications of spinal fusions in, 197
- Clavicle, modified osteotomy of, 102
- Clinical evaluation, after segmental pedicular screw hook fixation for spondylolysis, 363
- Complications
 of lumbar puncture, 168
 of lumbar spinal fusion, 1
 of operative versus nonoperative thoracolumbar trauma treatment, 407
 of spinal fusions in children with cerebral palsy, 197
- Compression
 anterior cervical spine, 45
 balloon device, 257
 of lumbar spine during lifting, 436
 in vertebral growth modulation, 141
- Computed tomography
 after segmental pedicular screw hook fixation for spondylolysis, 363
 discography, for lumbar disc herniation, 151
 of lower lumbar facet joints, 341
 of nonvisualized C7-T1, 472
 in sacroiliac joint injections, 310
 in thoracic pedicle screw placement, 222
 in vertebral rotation measurement, 126
- Conservative management/treatment
 of degenerative spondylolisthesis (letter), 80
 of far-lateral disc herniation, 138
 for herniated cervical intervertebral discs with radiculopathy, 396
 for thoracolumbar trauma, 407
- Cortical somatosensory evoked potentials, in graded spinal cord compression, 257
- Cost analysis, of computed tomography of nonvisualized C7-T1, 472
- Creep deformation, height change with, 313
- Cryomicrotomy, cervicothoracic junction anatomy and, 519
- Day surgery, factors affecting successful discharge after, 359
- Debridement, anterior, for osteomyelitis of spine, 17
- Decompression, for degenerative spondylolisthesis (letter), 80
- Decompressive laminoplasty, axial symptoms after, 392
- Deformity, in thoracolumbar fractures, 424
- Degenerative disc disease
 iliolumbar ligament morphology and, 348
 uninstrumented posterolateral lumbar fusion for, 34
- Degenerative spinal disorders
 after instrumented versus noninstrumented lumbar fusions, 27
 smoking cessation and, 477
- Degenerative spondylolisthesis
 decompression in surgical management of (letter), 80
 long-term follow-up for lumbar fusion in, 293
 lumbar lordosis, vertebral end-plate inclination, disc height, and facet orientation in, 68
- Demographics, for low back pain, 280
- Depression, with lumbar disc herniation, 375
- Diagnostic pars injection, operative repair of symptomatic spondylolysis after, 10
- Disc herniation
 cervical
 with radiculopathy, 396
 far-lateral, 138
 long-term follow-up for lumbar fusion in, 293
 lumbar, discography for, 151
 magnetic resonance imaging and early clinical outcome in, 368
 migrated, 307
 proliferation potential of lumbar disc after, 57
 psychometric analysis of patients treated for, 375
 revision surgery for, 287
- Discectomy
 anterior cervical, 467
 predictors of return to work after, 94
 factors affecting successful discharge after, 359
 laser-assisted, in cauda equina syndrome, 77
 magnetic resonance imaging and early clinical outcome in, 368
 outcomes of, 287
 outpatient, 192
- Discography, reevaluation of, 151
- Discs
 compression of during lifting, 436
 height of in degenerative spondylolisthesis, 68
 resorption of, uninstrumented posterolateral lumbar fusion for, 34
- Distraction, in vertebral growth modulation, 141
- Diurnal height change, with intervertebral disc creep, 313
- Dumbbell tumor, migrated lumbar disc herniation simulating, 307
- Dynamic posterior loading, spinal injury with, 501
- Dynamic trunk extension, electromyography-assisted model for, 509

- Elderly, major spinal surgery in, 402
- Electromyography
 asymmetric paraspinal muscle characteristics in idiopathic scoliosis, 61
 in trunk muscle force estimation, 509
- End-plate inclination, in degenerative spondylolisthesis, 68
- Endurance, with repetitive trunk exertions, 509
- Ependymoma, of spinal cord and cauda equina region, 157
- Epidemiology, of spinal epidural abscess, 89
- Epidural hematoma, after spinal manipulation, 534
- Epidural lipomatosis, complicating lumbar steroid injections, 526
- Epidural steroids, in lumbar dura material properties, 331
- Equilibrium, in lumbar spine biomechanics, 436
- Erector spinae, with fatiguing repetitive trunk exertions, 509
- Extirpation, for lumbar disc herniation, 375
- Facet joints**
 curvature of, 341
 orientation of, 341
 in degenerative spondylolisthesis, 68
- Fatigue
 with repetitive trunk exertions, 509
 of thoracolumbar spine implants, 410
- Fixation
 external pedicular, of lumbar spine, 147
 internal, factors affecting, 107
 pedicle screw
 clinical and CT scan evaluation after, 363
 at sacrum, 227
 transition zone degeneration and, 27
 plate
 cervical spine, 45
 for cervical spondylitic radiculopathy, 215
 for chronic spondylitic radiculopathy, 221
 posterior
 for grade III-V spondylolisthesis, 300
 lumbar, 240
 in restoration of thoracic kyphosis, 489
 transition zone degeneration and, 27
 transpedicular screw
 CT-guided, 222
 lumbar, 1
 for osteomyelitis of spine, 17
 Fixator, spinal, transition zone degeneration and, 27
- Flatback deformity, simultaneous spinal surgical technique for, 206
- Follow-up, for herniated cervical intervertebral discs with radiculopathy, 396
- Food and Drug Administration, spine surgery and, 277
- Fractures, anterior cortical allograft for, 424
- Functional outcome
 for human lumbar spine, 415
 with low back pain, 280
 of major spinal surgery in septuagenarians, 402
 of partial reduction and 360-degree fusion in grade III-V spondylolisthesis, 300
- Functional tests, for external pedicular fixation of lumbar spine, 147
- Fusion
 anterior cervical interbody, 215
 for chronic spondylitic radiculopathy, 221
 anterior cervical spine, 45
 axial symptoms and cervical alignments after, 50
 cervical plating and, 467
 360-degree, for grade III-V spondylolisthesis, 300
 factors predicting complications of, 197
 instrumented, 1
 versus noninstrumented, 27
 for King type II curve pattern, 262
 lumbar, factors affecting, 107
 for osteomyelitis of spine, 17
 posterior, 461
 lumbar interbody, 293
 posterolateral, 240
- scintigraphy after, 482
 in septuagenarians, 402
 smoking and maturation effects on long-term success of, 380
 for thoracolumbar fractures, 424
 uninstrumented posterolateral for single-level isolated disc resorption and degenerative disc disease, 34
 Zielke procedure with, 451
- Gelfoam, in polymethylmethacrylate-induced thermal injury prevention, 496
- Gluteal muscle, sacroiliac joint in activation of, 325
- Government regulation, of medical devices, 277
- Growth factor, posterolateral intertransverse process spinal arthrodesis and, 179
- Heat transfer**, with polymethylmethacrylate bone cement, 496
- Height change, with intervertebral disc creep, 313
- Hemangioma, spinal, 353
- Hematoma, thoracic epidural, after spinal manipulation, 534
- Herniated disc
 cervical, with radiculopathy, 396
 far-lateral, 138
 long-term follow-up for lumbar fusion in, 293
 magnetic resonance imaging and early clinical outcome in, 368
 migrated, 307
 proliferation potential of lumbar disc after, 57
 psychometric analysis of patients treated for, 375
 up-regulated expression of matrixin and neurophil collagenase in, 245
- Herniated nucleus pulposus, outpatient surgery for, 192
- Hip joint, shortening of unit rod protruding into, 74
- Huetter-Volkman law, of vertebral growth, 141
- Hydrosoluble injection, complications of, 168
- Hypokyphotic spine, restoration of thoracic kyphosis in, 489
- Iliolumbar ligament**, lower lumbar disc degeneration and, 348
- Implants, strength and fatigue resistance of, 410
- Instrumentation
 for single-rod construct, 430
 for thoracic scoliosis, 451
- Interbody fusion, long-term success of, 380
- Internist, performing laser-assisted discectomy for cauda equina syndrome, 77
- Intertransverse process spinal arthrodesis, posterolateral, 179
- Intervertebral disc
 creep of, height change with, 313
 hernia of, long-term follow-up for lumbar fusion in, 293
- Intervertebral joints, curvature and orientation of, 341
- Intraarticular injections, computed tomography-guided, 310
- Intramedullary schwannoma, thoracic, 174
- Intramedullary tumor, spinal cord sarcoidosis mimicking, 530
- Isoinertial strength, paraspinal muscle cross-sectional areas and, 266
- Isolated disc resorption, uninstrumented posterolateral lumbar fusion for, 34
- Isometric strength, paraspinal muscle cross-sectional areas and, 266
- Isthmic defect repair, clinical and CT scan evaluation after, 363
- Junctional degeneration**, with instrumented and noninstrumented lumbar fusion, 27
- King type II curve pattern**, thoracic fusion for, 262
- Kyphosis, thoracic, restoration of in hypokyphotic spine, 489
- Laminectomy**
 cervical, 172
 cervical ossification of posterior longitudinal ligament after, 271
 with posterior wiring and fusion of cervical ossification, 461
- Laminectomy membrane, dynamic compression by, 172
- Laminoplasty
 cervical ossification of posterior longitudinal ligament after, 271
 en bloc cervical, axial symptoms after, 392
 long-term follow-up after, 99
 modified expansive open-door in cervical myelopathy, 386
- Laminotomy
 outcomes of, 287
 outpatient, 192
- Laser-assisted discectomy, in cauda equina syndrome, 77
- Letters to editor, 80, 357
- Lifting
 lordosis changes in mechanics of, 436
 trunk muscle forces during, 509
- Lipoma, spinal, 353
- Lipomatosis, epidural, complicating lumbar steroid injections, 526
- Load transmission, anterior cervical spine, 45
- Load-deformation curves, under posterior shear load, 501
- Longitudinal ligament ossification, posterior, 250, 271, 461
- Long-term follow-up
 of cervical spondylitic myelopathy, 99
 of posterior lumbar interbody fusion, 293
- Lordosis, changes in and lumbar spine mechanics, 436
- Low back injury, porcine cervical model of, 415
- Low back pain
 asymptomatic versus chronic, 131
 sick leave for, 280
 smoking cessation and, 477
 with thoracic epidural hematoma, 534
 vascular, 162
- Lumbago, discography for, 151
- Lumbar curvature, in lifting, 436
- Lumbar disc
 degenerative disease of
 iliolumbar ligament morphology and, 348
 uninstrumented posterolateral lumbar fusion for, 34
 herniation of
 migrated, 307
 psychometric analysis of patients treated for, 375
 surgical outcomes for, 287
- Lumbar discectomy
 factors affecting successful discharge after, 359
 magnetic resonance imaging and early clinical outcome in, 368
 outpatient, 192
- Lumbar dura, material properties of, 331
- Lumbar facet joint curvature, variations of, 341
- Lumbar lordosis
 in asymptomatic versus chronic low back pain, 131
 in degenerative spondylolisthesis, 68
- Lumbar puncture, complications of, 168
- Lumbar spine
 disc herniation of, 151, 307
 proliferation potential after, 57
 external pedicular fixation of, 147
 facet joints of in degenerative spondylolisthesis, 68
 fusion of, 1
 factors affecting, 107
 instrumented versus noninstrumented, 27
 smoking and maturation effects on long-term success of, 380
 uninstrumented posterolateral for single-level isolated disc resorption and degenerative disc disease, 34

- in lifting, 436
 ossification of posterior longitudinal ligament of, 250
 porcine cervical spine model of, 415
 posterior fixation of, 240
 posterior interbody fusion of, long-term follow-up for, 293
 posterolateral arthrodesis of, 179
 sacroiliac joint in activation of musculature of, 325
 segmental pedicular screw hook fixation of, 363
 stenosis of, selecting surgical treatment for, 40
 Lumbar steroid injections, epidural lipomatosis complicating, 526
 Lumbosacral fusion
 instrumented, case analysis of, 1
 in septuagenarians, 402
 Lysis repair, clinical and CT scan evaluation after, 363
- Magnetic resonance imaging**
 cervicothoracic junction anatomy and, 519
 dynamic, 172
 for epidural lipomatosis, 526
 of lower lumbar disc degeneration, 348
 of lumbar discs, 57
 of lumbar muscle cross-sectional areas, 266
 preoperative and postoperative for automated percutaneous lumbar discectomy, 368
 for spinal cord sarcoidosis, 530
 Malunion, simultaneous spinal surgical technique for, 206
 Manubrium sterni, modified osteotomy of, 102
 Matrilysin, up-regulated expression of, 245
 Matrix metalloproteinases, in herniated discs, 245
 Maturation, effects of on long-term success of lumbar spinal fusion, 380
 Medical devices, FDA regulation of, 277
 Meningitis, chemical, with lumbar puncture, 168
 Methicillin-resistant staphylococcal wound infection, risk factors with, 187
 Migrated lumbar disc herniation, simulating dumbbell tumor, 307
 Morphology
 of iliolumbar ligament, 348
 lumbar spine, 341
 Motor evoked potentials, in graded spinal cord compression, 257
 Multifidus muscle activation, sacroiliac joint involvement in, 325
 Multiple-hook fixation, in restoration of thoracic kyphosis, 489
 Muscles
 sacroiliac joint involvement in activation of, 325
 of trunk, strength of, 266
 Myelopathy, cervical
 with laminectomy membrane compression, 172
 modified expansive open-door laminoplasty in, 386
 spondylitic, long-term follow-up after laminoplasty for, 99
- Neck pain, after anterior cervical discectomy, 94
 Neutrophil collagenase, up-regulated expression of, 245
 Nucleus pulposus, herniated, 57
 outpatient surgery for, 192
 resorption of, 245
- Orthopaedic fixation devices, transition zone degeneration and, 27**
- Ossification**
 cervical, laminectomy for, 461
 of posterior longitudinal ligament, 271
 of yellow ligament, 461
 of yellow ligament and posterior longitudinal ligament, 250
 Osteomyelitis: debridement, fusion, and extrafocal stabilization for, 17
 Osteotomy, modified, of manubrium sterni and clavicle, 102
- Outcomes**
 of automated percutaneous lumbar discectomy, 368
 of ependymoma surgery, 157
 of external pedicular fixation, 147
 of lumbar discectomy for sciatica, 359
 of major spinal surgery in septuagenarians, 402
 of partial reduction and 360-degree fusion in grade III-V spondylolisthesis, 300
 of revision lumbar disc surgery, 287
 Outpatient surgery, 192
- Pain**
 with lumbar disc herniation, 375
 provocation tests for sacroiliac joint dysfunction (letter), 357
 relief of with external pedicular fixation, 147
 Paralysis, in spinal cord sarcoidosis, 530
 Paraparesis, posttraumatic, syringomyelia treatment after, 485
 Paraspinal muscles
 asymmetry of EMG-time characteristics in idiopathic scoliosis, 61
 cross-sectional area of and trunk muscle strength measurements, 266
 Pars injection, operative repair of symptomatic spondylolysis after, 10
 Pars interarticularis screw
 in segmental hook fixation, 363
 for unstable thoracic spine, 115
 Pedicle hook system, safety of, 234
 Pedicle screw fixation
 clinical and CT scan evaluation after, 363
 in restoration of thoracic kyphosis, 489
 screw placement in
 CT-guided, 222
 at sacrum, 227
 transition zone degeneration and, 27
 for unstable thoracic spine, 115
 Plastic reconstruction, soft tissue, for cervical myelopathy, 386
 Plate fixation
 cervical spine, 45
 for cervical spondylitic radiculopathy, 215
 for chronic spondylitic radiculopathy, 221
 Plate load sharing, cervical spine, 45
 Plating
 biomechanics of in unstable thoracic spine, 115
 cervical, effect on single-level anterior cervical discectomy and fusion, 467
 Polymethylmethacrylate-induced thermal injury, gel-foam in prevention of, 496
 Porcine cervical spine model, for human lumbar spine, 415
 Posner's spinal instability, 40
 Posterior approach, spinal surgery, 206, 214
 Posterior shear loading, spinal failure under, 501
 Pseudarthrosis
 with cervical plating, discectomy and fusion, 467
 scintigraphy in diagnosis of, 482
 simultaneous spinal surgical technique for, 206
 Psychometric analysis, predictive value of in extirpation of lumbar disc herniation, 375
 Psychometry, for patients with lumbar disc herniation, 375
 Pulsed electromagnetic fields, in lumbar spinal fusion success, 380
- Radiculopathy, herniated cervical intervertebral discs with, 396**
- Radiology, for cervical ossification of posterior longitudinal ligament, 271**
- Recombinant human bone morphogenetic protein-2 (rhBMP-2), posterolateral intertransverse process spinal arthrodesis with, 179**
- Reconstruction plate, for unstable thoracic spine, 115**
- Reconstructive surgery, for cervical myelopathy, 386**
- Reduction, partial, of grade III-V spondylolisthesis, 300**
- P₂ modeling, in degenerative spondylolisthesis, 68**
- Resorption, of herniated nucleus pulposus, 245**
- Return to work, predictors of after anterior cervical discectomy, 94**
- Revision surgery**
 outcomes of, 287
 simultaneous spinal surgical technique in, 214
 simultaneous technique for, 206
 Rhesus monkey, posterolateral intertransverse process spinal arthrodesis in, 179
 Rheumatoid arthritis subluxation, cervical spine, without myelopathy, 81
 Rods, biomechanics of in unstable thoracic spine, 115
 Roentgenography, of vertebral inclination on sagittal plane in low back pain patients, 131
- Sacroiliac joint**
 computed tomography-guided injections at, 310
 dysfunction of, pain provocation tests for (letter), 357
 in porcine spinal and gluteal musculature activation, 325
 Sacrum, pedicle screw placement at, 227
 Sarcoidosis, spinal cord, 530
 Scarring, arachnoid, in posttraumatic syringomyelia, 485
 Schwannoma, thoracic intramedullary, 174
 Sciatica
 lumbar discectomy for, 359
 magnetic resonance imaging and early clinical outcome in, 368
 Scintigraphy, in pseudarthrosis diagnosis after spinal fusion, 482
 Scoliosis
 asymmetry of paraspinal EMG-time characteristics in, 61
 complications of spinal fusions in, 197
 progression of, 141
 restoration of thoracic kyphosis in, 489
 short fusion with Zielke procedure for, 451
 shortening of unit rod protruding into hip joint in, 74
 single-rod construct for, 430
 surgery for in septuagenarians, 402
 torsional stiffness of spine constructs for, 120
 vertebral rotation measurement in, 126
 Segment degeneration, with instrumented and noninstrumented lumbar fusion, 27
 Segmental instability, Posner's definition of, 40
 Segmental pedicular screw hook fixation, clinical and CT scan evaluation after, 363
 Segmental roentgenographic analysis, of vertebral inclination on sagittal plane in low back pain patients, 131
 Segmental square spinal instrumentation, for posterior lumbar spinal fixation, 240
 Septuagenarians, major spinal surgery in, 402
 Shear load, biomechanical spinal failure under, 501
 Sick leave
 after anterior cervical discectomy, 94
 for low back pain, 280
 Simultaneous technique, 214
 for revision surgery, 206
 Single-level isolated disc resorption, uninstrumented posterolateral lumbar fusion for, 34
 Single-rod construct, for scoliosis, 430
 Smoking
 cessation of and spine surgery, 477
 effects of on long-term maintenance of lumbar spinal fusion, 380
 Soft tissue reconstruction, for cervical myelopathy, 386
 Spinal angiolioma, case report of, 353
 Spinal arthrodesis, recombinant human bone morphogenetic protein in, 179
 Spinal cord
 compression of, balloon device for, 257
 ependymoma of, 157
 gelfoam in preventing thermal injury of, 496
 sarcoidosis of mimicking intramedullary tumor, 530

- schwannoma of, 174
 syringomyelia after injury of, 485
 Spinal curvature, lumbar facet joint, 341
 Spinal epidural abscess: epidemiology, diagnosis, and treatment of, 89
 Spinal fusion
 anterior cervical
 for chronic spondylitic radiculopathy, 221
 interbody, 215
 axial symptoms and cervical alignments after, 50
 cervical plating and, 467
 factors predicting complications of, 197
 for grade III-V spondylolisthesis, 300
 instrumented versus noninstrumented, 27
 for King type II curve pattern, 262
 long-term follow-up for, 293
 lumbar, factors affecting, 107
 lumbosacral, 1
 for osteomyelitis of spine, 17
 Posner's spinal instability and, 40
 posterior, 461
 scintigraphy after, 482
 in septuagenarians, 402
 smoking and maturation effects on long-term success of, 380
 uninstrumented posterolateral for single-level isolated disc resorption and degenerative disc disease, 34
 Zielke procedure with, 451
 Spinal implants, strength and fatigue resistance of, 410
 Spinal instability
 laminectomy with posterior wiring and fusion for, 461
 Posner's definition of, 40
 Spinal instrumentation
 segmental square, 240
 torsional stiffness of, 120
 Spinal manipulation, thoracic epidural hematoma after, 534
 Spinal model, viscoelastic, 313
 Spinal profile, intervertebral disc creep in, 313
 Spine
 injury of under posterior shear load, 501
 smoking cessation and surgery of, 477
 stenosis of, selecting surgical treatment for, 40
 Spondylolysis, scintigraphy after surgery for, 482
 Spondylolisthesis
 degenerative
 decompression in surgical management of (letter), 80
 lumbar lordosis, vertebral end-plate inclination, disc height, and facet orientation in, 68
 grade III-V, functional outcome in, 300
 grades of, 10
 long-term follow-up for lumbar fusion in, 293
 Spondylolysis
 segmental pedicular screw hook fixation for, 363
 symptomatic, operative repair of, 10
 Spondylosis
 laminectomy for, 461
 yellow ligament ossification and, 250
 Spondylotic radiculopathy
 cervical, spinal fusion and plate fixation for, 215
 chronic, cervical fusion and plate fixation for, 221
 Stabilization
 complications of, 407
 extrafocal, for osteomyelitis of spine, 17
 of thoracic spine after trauma, 115
 Staphylococcal wound infection, after spinal surgery, 187
 Stenosis, laminectomy with posterior wiring and fusion for, 461
 Steroids
 epidural, lumbar dura and, 331
 lumbar injections of, 526
 Strength testing, of thoracolumbar spine implants, 410
 Surveys, FDA and, 277
 Surgery
 anterior, with short fusion using Zielke procedure, 451
 cervicothoracic junction approaches in, 519
 complications of, 407
 for degenerative spondylolisthesis (letter), 80
 for ependymoma, 157
 factors affecting successful discharge after, 359
 factors predicting complications of, 197
 for herniated cervical intervertebral discs with radiculopathy, 396
 for isolated disc resorption and degenerative disc disease, 34
 methicillin-resistant staphylococcal wound infection risk after, 187
 outpatient, 192
 Posner's spinal instability in selection of, 40
 in septuagenarians, 402
 for shortened unit rod protruding into hip joint, 74
 simultaneous anterior and posterior approaches in, 206
 smoking cessation and, 477
 for symptomatic spondylolysis, 10
 using segmental pedicular screw hook fixation, 363
 Surgical drainage, for spinal epidural abscess, 89
 Syringomyelia, treatment of after traumatic paraparesis, 485
 Tetraparesis, posttraumatic, syringomyelia treatment after, 485
 Thermal injury, gel foam in prevention of, 496
 Thoracic curve, short fusion with Zielke procedure for, 451
 Thoracic kyphosis
 in asymptomatic versus chronic low back pain, 131
 restoration of in hypokyphotic spine, 489
 Thoracic spinal cord, schwannoma of, 174
 Thoracic spine
 epidural hematoma of, 534
 fusion of for King type II curve pattern, 262
 ossification of posterior longitudinal ligament of, 250
 pedicle screw placement in, 222
 safety of USS pedicle hook system in, 234
 unstable, biomechanics of plates and rods in, 115
 Thoracolumbar spine
 anterior cortical allograft for fractures of, 424
 implants of, strength and fatigue resistance of, 410
 trauma to, 407
 Torsional stiffness
 for single-rod construct, 430
 of thoracic scoliosis spine constructs, 120
 Transition zone degeneration, after instrumented versus noninstrumented lumbar fusion, 27
 Trauma
 syringomyelia treatment after, 485
 thoracolumbar, treatment of, 407
 Trunk exertions, trunk muscle forces during fatiguing repetitive, 509
 Trunk muscle
 electromyography-assisted model for forces of, 509
 isometric and isoinertial strength measurements of, 266
 TSRH spinal system, for unstable thoracic spine, 115
 Tumor, intramedullary, spinal cord sarcoidosis mimicking, 530
 Unit rods
 complications of, 197
 shortened, protruding, 74
 Universal spine system, pedicle hook, 234
 Vascular backache, pathomechanisms of, 162
 Vascular reconstruction, for backache, 162
 Ventrolisthesis, degenerative, 68
 Vertebrae
 end-plate inclination of in degenerative spondylolisthesis, 68
 growth of, mechanical modulation of, 141
 inclination of in asymptomatic versus chronic low back pain, 131
 measuring rotation of, 126
 wedged, 141
 Viscoelasticity, of intervertebral discs, 313
 Wiring, for cervical ossification, spondylolysis, stenosis, and instability, 461
 Work force, low back pain in, 280
 Working conditions, low back pain and, 280
 Wound infection, methicillin-resistant staphylococcal, 187
 Yellow ligament ossification, 250
 laminectomy for, 461
 Zielke procedure, short fusion with, 451

Journal of Spinal Disorders Volume 12, 1999
